

Climate Change Testimonials

*This .pdf document was created to provide individuals and/or groups with a place to share testimonials regarding the realities, both of climate change, and of its possible resolution. **Please follow style pattern, as established.***

Thomas Park, 9/7/2018: I will start by affirming that, as a 47 year old man living in the MidWest USA, I can remember clearly that summers used to be cooler and shorter, Winters longer and with more snow. There were fewer catastrophic weather events. All of this is clear as a bell to me.
