

Climate Change Investment

*This .pdf document was created to furnish links to websites, ideas, online documents or other resources that provide means by which efforts to combat climate change may be financially supported-- ie, investment in ending climate change. **Please follow style pattern, as established.***

Retirement Funds: A wide assortment of funds should be offered, perhaps with special incentives, to promote the idea that renewable energy is worth investing in. Special bonds could be sold that could help fund the energy grid transition process.
