

Climate Change Research And Proof

*This .pdf document was created to furnish links to websites, online documents or other resources that furnish proof that climate change is real and man-made, and that concerted human effort can affect climate change. **Please follow style pattern, as established.***

NASA: <https://climate.nasa.gov/evidence/>

Essential federal agency offering proof of change and extensive related and ongoing research

Coastal Wiki:

http://www.coastalwiki.org/wiki/Effects_of_global_climate_change_on_European_marine_biodiversity

Wiki exclusive to European marine life, dealing with effects of climate change on marine communities

General Idea: NASA's proof is clear enough to justify immediate action. There are many other studies and proofs, in addition to theirs, if desired.
